

ANTHONY FLINT CURRICULUM VITAE

I am a Fellow of the Association of Chartered Certified Accountants, having qualified in 2003.

I am a Director of Forths Forensic Accountants, a niche company specialising in the provision of Forensic Accountancy Services to the legal market, having been involved in its establishment in April 2002.

Previously I was an Assistant Manager with HLB Kidsons, Chartered Accountants, where I had worked in the Forensic Services department, from April 1999, spending the whole of my time preparing reports for the Courts or assisting in the settlement of disputes.

I am currently involved in a significant number of cases a year, of which approximately 85% are Personal Injury matters (including fatal accident, clinical negligence and pension loss cases). Of the remaining 15% of cases, I am regularly instructed on matrimonial matters, commercial disputes and employment matters.

I undertake work for both Claimant and Defendant solicitors, on both a separate and single joint basis. In addition, I undertake work for Insurance Companies, Claims Management Companies and Litigants in Person direct, in order to assist in the settlement of matters pre issue.
