

FORTHS FORENSIC ACCOUNTANTS

ENVIRONMENTAL POLICY

The owners and staff of Forths Forensic Accountants believe that to achieve our goals of becoming one of the leading Forensic Accountants in the country, we must lead not only economically, but environmentally and socially as well.

The company understands that it is in a position to affect the environment. Our objective is not only to sustain our environment for our descendants but also to rehabilitate the damage previously done.

We believe that our corporate responsibility goes beyond our proprietary borders and we endeavour to cooperate with our neighbours and suppliers to develop our business in a sustainable manner. Every effort will be made to conserve resources throughout our operations. The company will not only meet existing environmental laws and regulations, but go beyond the status quo and seek techniques and approaches that position us ahead of the competition.

Transport

- Whenever possible, public transport will be used to attend meetings and for employees to travel to and from work. We have positioned our offices on public transport routes to facilitate this
- For those who do need to travel by car, to work, we have set up a car share scheme within the company

Energy

- Appliances are turned off when not in use
- Where applicable energy saving light bulbs are used
- We maintain temperature control through window and doors, not air-conditioning.
- We use energy efficient kettles

Waste Minimisation and Recycling

- We contract bins for recycling our waste
- Our shredded documentation is taken away for secure environmental disposal
- We donate printer cartridges to toner appeals
- We donate redundant IT equipment to charities
- We minimise paper use by digitally storing files where possible
- We use recycled paper where possible
- Dictation is done, where possible, to save on paper

The company's policies are enforced throughout all members of staff and we also advise staff members of their personal responsibilities outside of work.

Our success will be determined on a yearly basis with a commitment to improve.
